SC 99/3

Machine for the steel fibres disentangling and loading

Machine for dosing, distribution and transport of concrete reinforcement steel fibres directly into the truck mixer or into the concrete mixer.

Technical Features

SC 99/3

Max hourly output	kg/min	80
Overall machine dimensions with outlet pipe	mm	500x1300x4600 h
Overall machine dimensions for transportation	mm	2300x1300x1450 h
Max. height from the ground of the fibres outlet	mm	4200
Min. height from the ground of the fibres outlet	mm	3200
Fibres load capacity	kg	20
Drum speed	rpm	35
Total installed rated power	KW	8,5
Drum rated power	KW	0,75
Fan motor rated power	KW	7,5
Voltage supply power	V	400
Frequency	Hz	50
Phases no.		3 +
Machine total weight	kg	700
Machine weight without the pipes	kg	615
Weight of the pipes	kg	85
